Education

IMT Atlantique

Engineering Degree, Data Science [GPA: 3.92/4]

Relevant Coursework: Data Structures, Algorithms, Data Engineering, Statistics, ML, NLP, System design

Nantes, France

2022-2025

Universidad Carlo III Madrid [Erasmus+]

Study abroad coursework in AI, LLMs, vLLMs, Fine-Tuning, RAG.

Madrid, Spain

Jan 2024 - June 2024

Preparatory Classes (MPSI/MP)

Top of 2020/2021 classes

Meknes, Morocco

2020-2022

Experience

SOPRA STERIA NEXT

AI Solutions Engineer

- Led Relevant AI initiatives across Sales, Financial Services & Public Sector clients.
- Architected and delivered 3 production-grade AI applications (RFP analysis, semantic search, RAG agents) and drove POC-to-production industrialization of key AI use cases (RAG Evaluation, Speech-to-Text, Grafana Supervision).
- Conducting applied R&D on LLM fine-tuning via reinforcement learning (GRPO and related methods)

Nantes, France

Oct 2025 - Present

ALTEN

AI Research Intern

- Contributed to Alten's R&D Innovation Lab, researching applied LLM techniques.
- Benchmarked Q&A approaches over tabular ESG & financial reports (context formats, prompting strategies, RAG architectures).
- Conducted full Text2SQL state-of-the-art review and built a functional demonstrator for NL querying over structured data.

Rennes, France

Apr 2024 - Sept 2024

Royal Belgian Football Federation (RBFA)

AI Research Intern

- Worked alongside performance analyst/ data scientists to translate tactical and physical match analysis needs into technical solutions.
- Researched and implemented Computer Vision pipelines for players detection, and phase-of-play segmentation from match footage.
- Produced custom tactical visualizations to support match preparation.

remote

Dec 2024 - Mar 2025

French Health Insurance

Software Engineer/ Data Analyst

- Led a team of 4 students, collaborating closely with a French Health Insurance expert.
- Designed and developed a fraud detection interface for reimbursement claims, covering database architecture, backend, and frontend development.
- Built Business Intelligence dashboards to visualize and analyze reimbursement data.
- Presented the project at the Palais des Congrès de Paris in the presence of representatives from the French Ministry of Health.

remote

Sept 2024 - Dec 2024

Honors and Activities

- Competitive football player, regularly engaged in team sports and tournaments.
- 2nd out of 3,000 applicants at the Barça Innovation Hub Hackathon, Talent Arena Barcelona.
- Won the Outstanding Award at the Huawei Munich Tech Arena (AI & Audio)
- Won the Airbus Digital Challenge for an NLP-based informal data analysis solution.
- Presented fraud detection research applied to French health organizations at the Palais des Congrès, Paris.

Skills & Interests

Technical: Python (Advanced ML/AI), SQL, Docker | Kubernetes | Openshift, Power BI

Language: Arabic (Native), French (Bilingual), English (C1), Spanish (B2)

Github: [aliamrrr](#) · [GitHub](#)

Interests: Football, fishing, tennis, speaking (tech talks at schools, conferences)
